Carcass Tag Tracking Sheet

Vendor Name _____Store Number_____

A carcass tag will automatically be displayed in the system as "issued" when it is properly vended through the system. License vendors should maintain a carcass tag tracking sheet and document each carcass tag that is issued to keep a physical account of their carcass tags and to avoid transposing control numbers or issuing a carcass tag without vending it through the system.

Control Number	Date Issued	Customer ID Number (CIN)	Username	Species
