Address 1: 123 MAIN STREET
Address 2:
City: SANTA FE
State: NM - NEW MEXICO Zip:
Country: United States

Tag Confirmation:
I confirm that I have reviewed this information.

NM E-Tag

NM E-TAG OPTION (DEER AND ELK ONLY) INFORMATION AND INSTRUCTIONS

- You have chosen the E-Tag option for deer or elk. You are now required to install the e-tagging app (available later in the year) on your smartphone, log in to your account to upload your license information, and must be able to display your license on your phone at all times while in the field.
- NMDGF will e-mail additional information when the e-tagging app becomes available. **PLEASE ENSURE THAT YOU HAVE A VALID E-MAIL ADDRESS IN YOUR NMDGF ACCOUNT!**
- It is your responsibility to ensure that your smartphone is operational and charged at all times.
- Upon harvesting a deer or elk, you will obtain your E-Tag number through the app, and must then write the E-Tag number, CN and date of kill on a durable material in permanent ink and attach it to the animal as required for physical tags.
- If an antler or horn tag is required, you will need to write the information on durable material a second time and attach it to the antler or horn as required for physical tags.
- If you decide you'd prefer a physical carcass tag, you may purchase a duplicate tag at any license vendor or NMDGF office for a \$6 fee. If a physical tag is purchased, the e-tag option will be invalidated and may not be reselected.

Instructions are printed on the deer or elk license the user receives when choosing to E-Tag.

NM E-Tag

INSTALLATION

Install the application using the GooglePlay or Apple stores.

Available On:

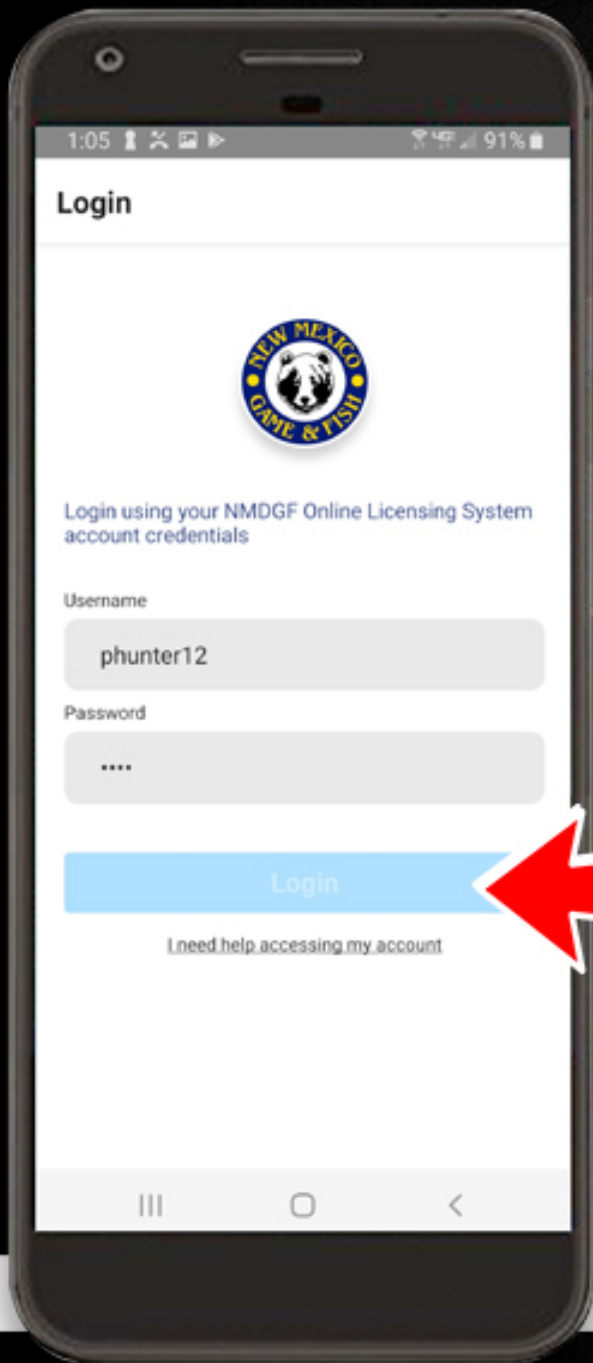

Once installed an Icon will be displayed called NM E-Tag.

NM E-Tag

USING THE APP

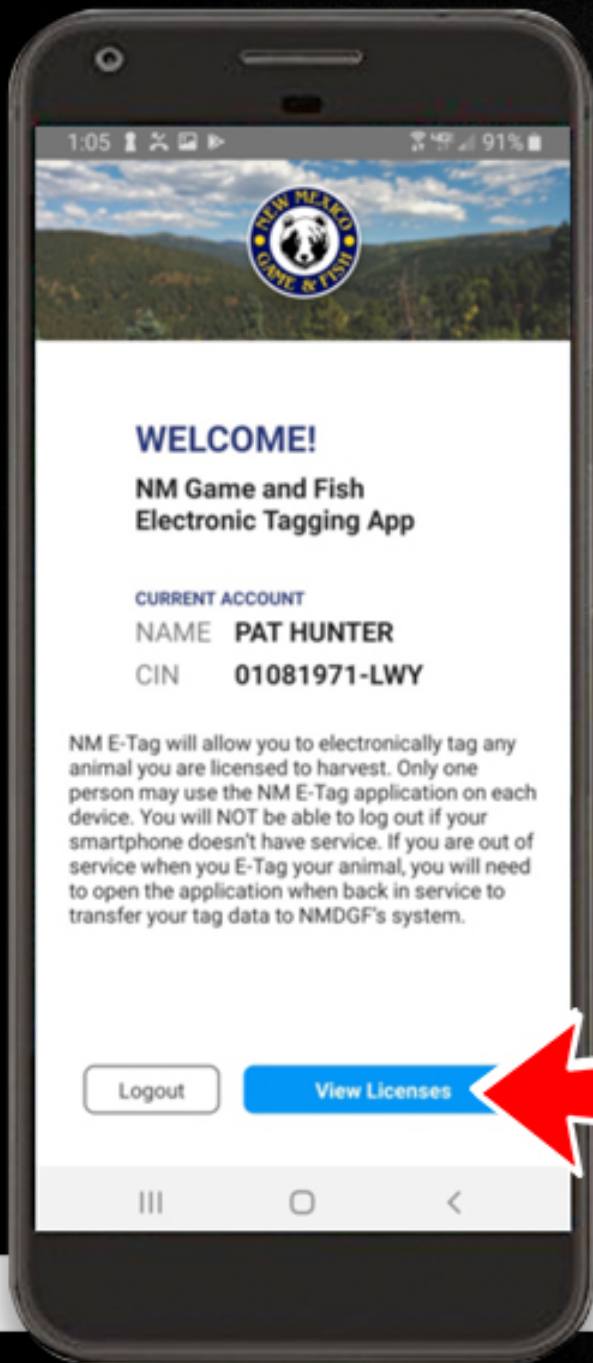

Login using your Department Online Licensing System account credentials

NM E-Tag

USING THE APP

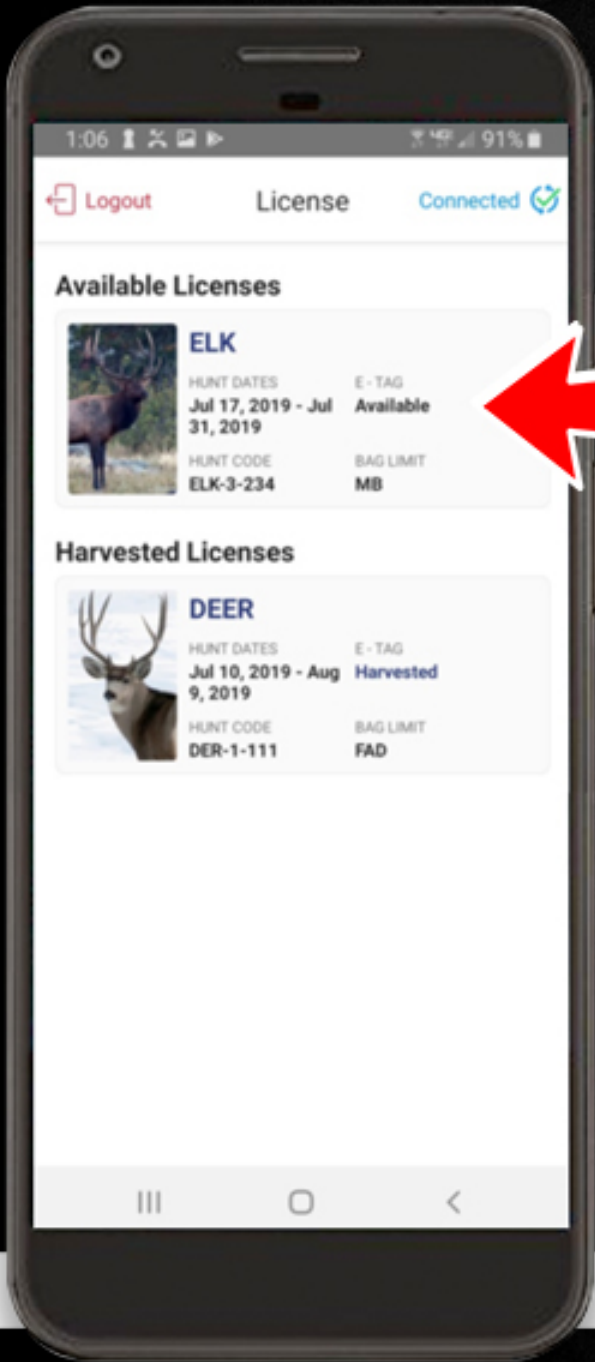

A successful login will display the user's license information.

The user will select the "View Licenses" button to display valid E-Tag licenses.

NM E-Tag

USING THE APP

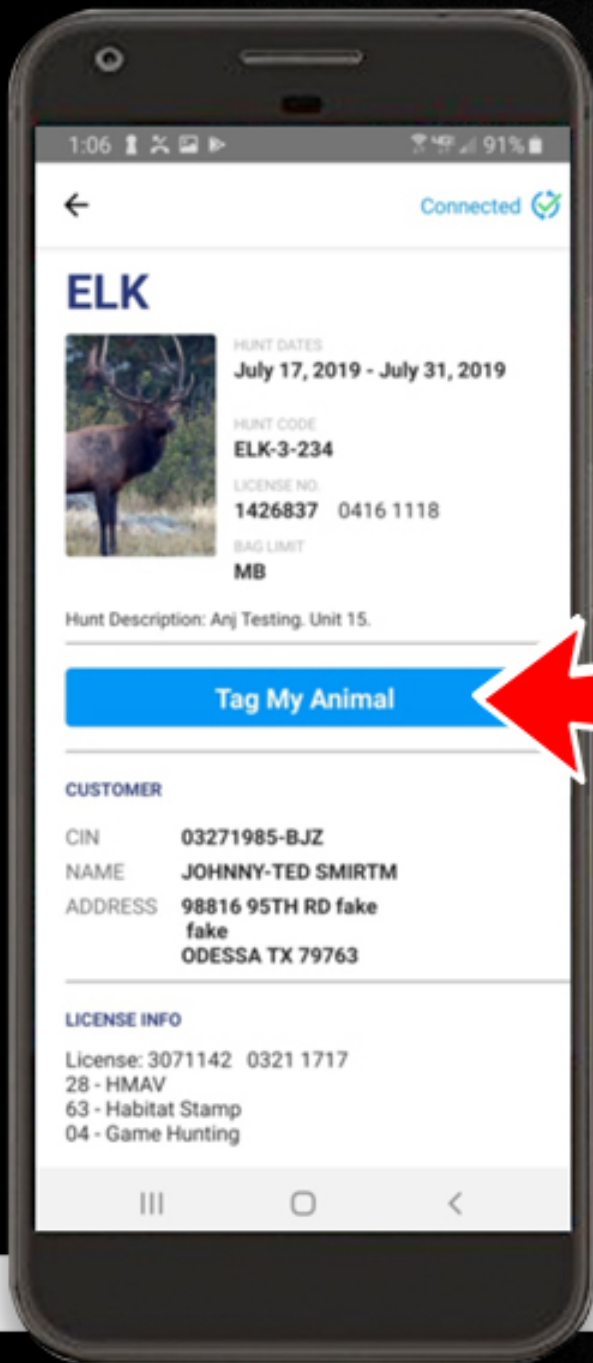

The application will locate all valid NM E-Tag licenses and display them for the user.

NM E-Tag

USING THE APP

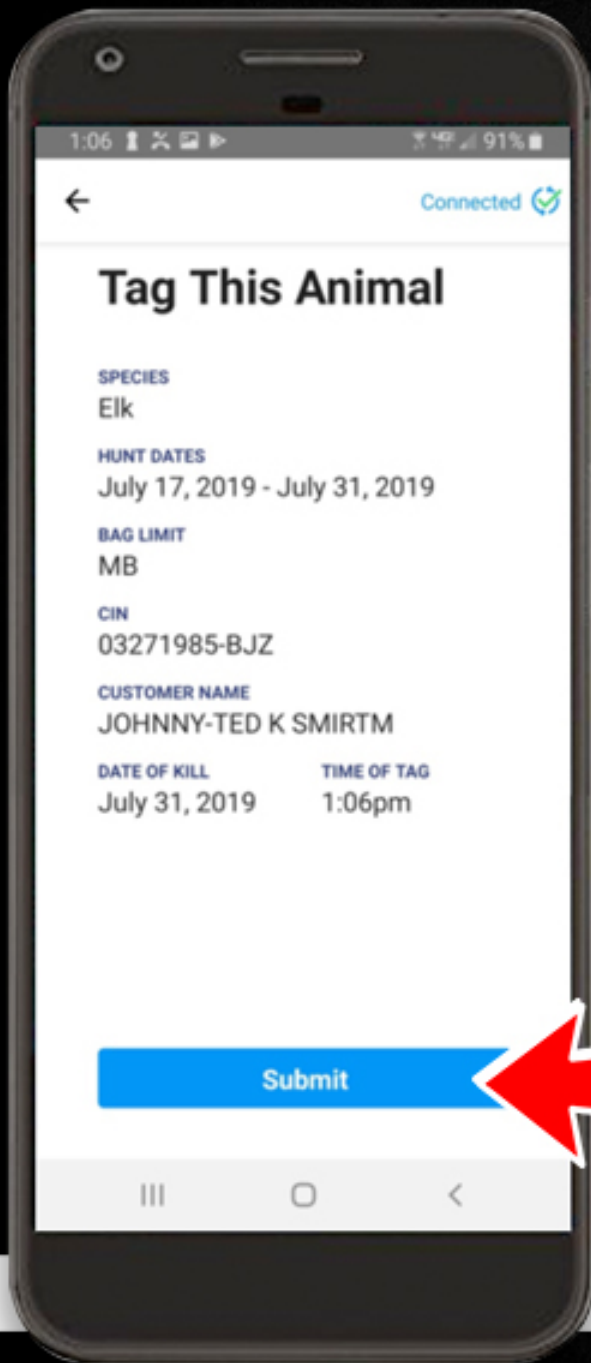

After selecting the species the user is able to tag their animal.

NM E-Tag

USING THE APP

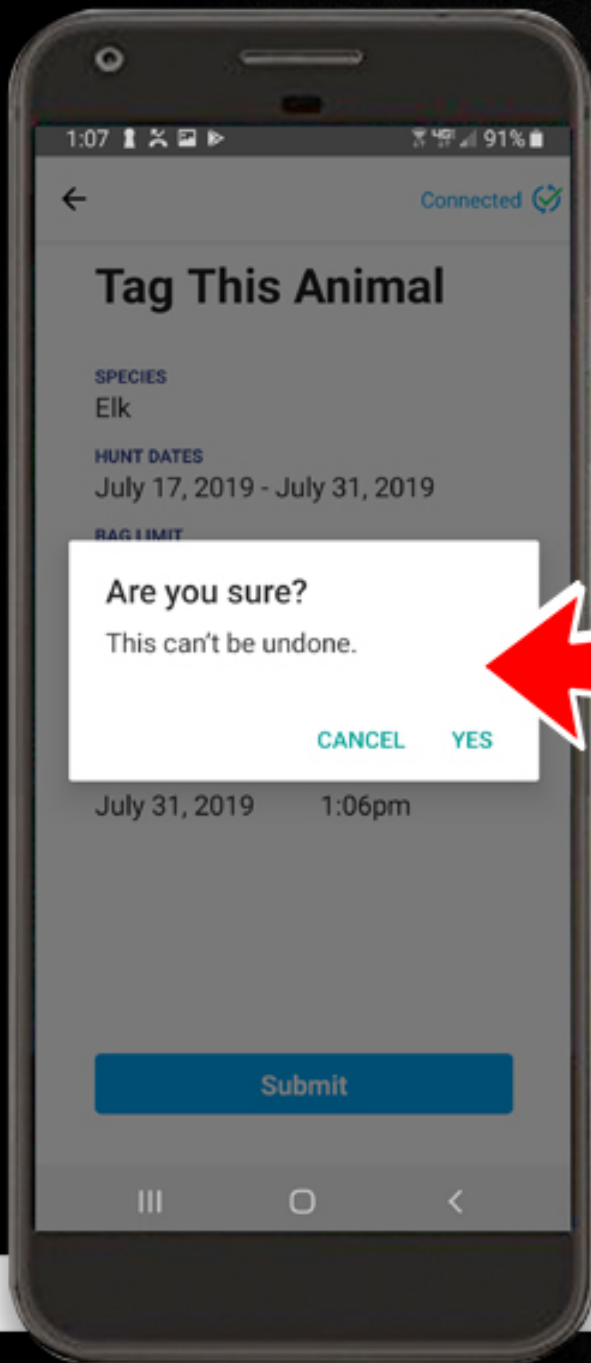

The user will select the submit button to confirm the harvest.

NM E-Tag

USING THE APP

The user will be asked to confirm their harvest a second time. Once selected, this action can not be undone.

NM E-Tag

USING THE APP

Tagging instructions are provided to the user. They are required to write their name, CIN, E-Tag number and date of kill on any material they can securely attach to the antlers and carcass.

Tagging Instructions

1. Write the information displayed below in permanent ink on a durable material (e.g. duct tape or flagging ribbon). If you have harvested an antlered or horned animal, please complete this step twice.

NAME **EDWARD-RALPH A LOVAHTO**
CIN **02151958-BQT**
E-TAG **19-358553**
DATE OF KILL **7-31-2019**

2. Attach your hand-written tag to the hock tendon of the animal (see illustration below) prior to moving the animal from the kill site.
3. If more than one tag is required, attach the second tag to the antler or horn of the animal (see illustration below) prior to moving the animal from the kill site.

4. Make sure your information is visible and readable after attaching the tag(s).
5. You must immediately tag your animal upon kill. Failure to tag may result in seizure of the animal.

Done

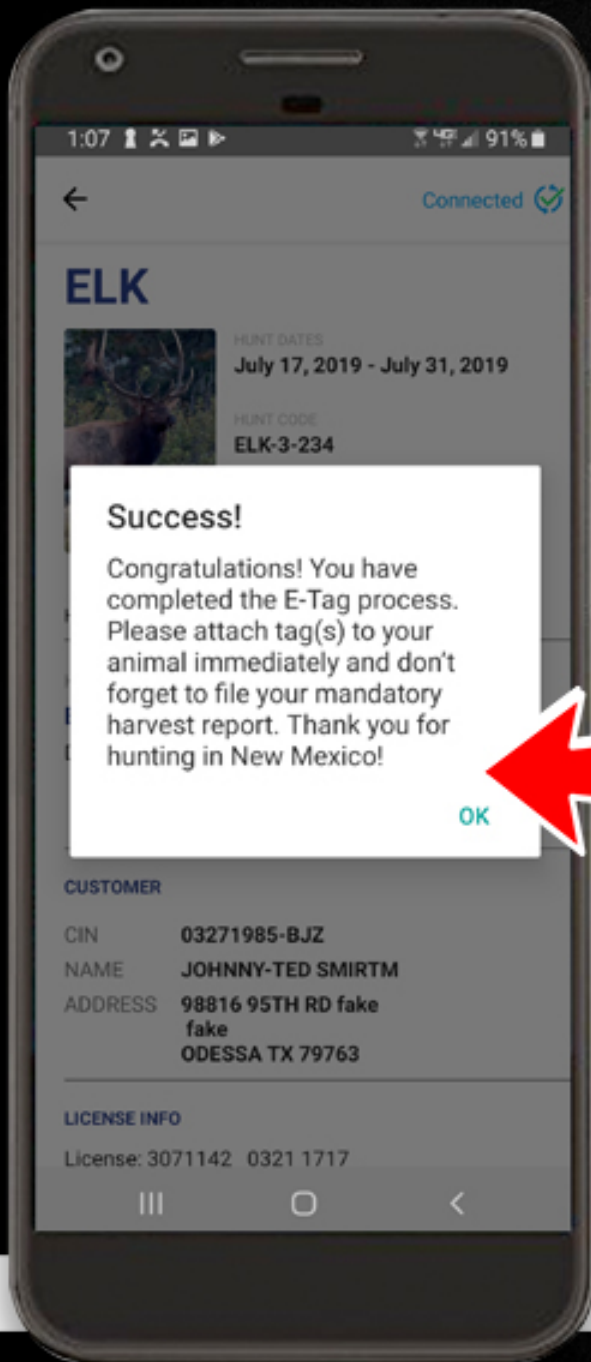

- Full Name
- E-Tag Number
- Customer Identification Number
- Harvest Date

The user selects "Done" when finished with the instructions.

NM E-Tag

USING THE APP

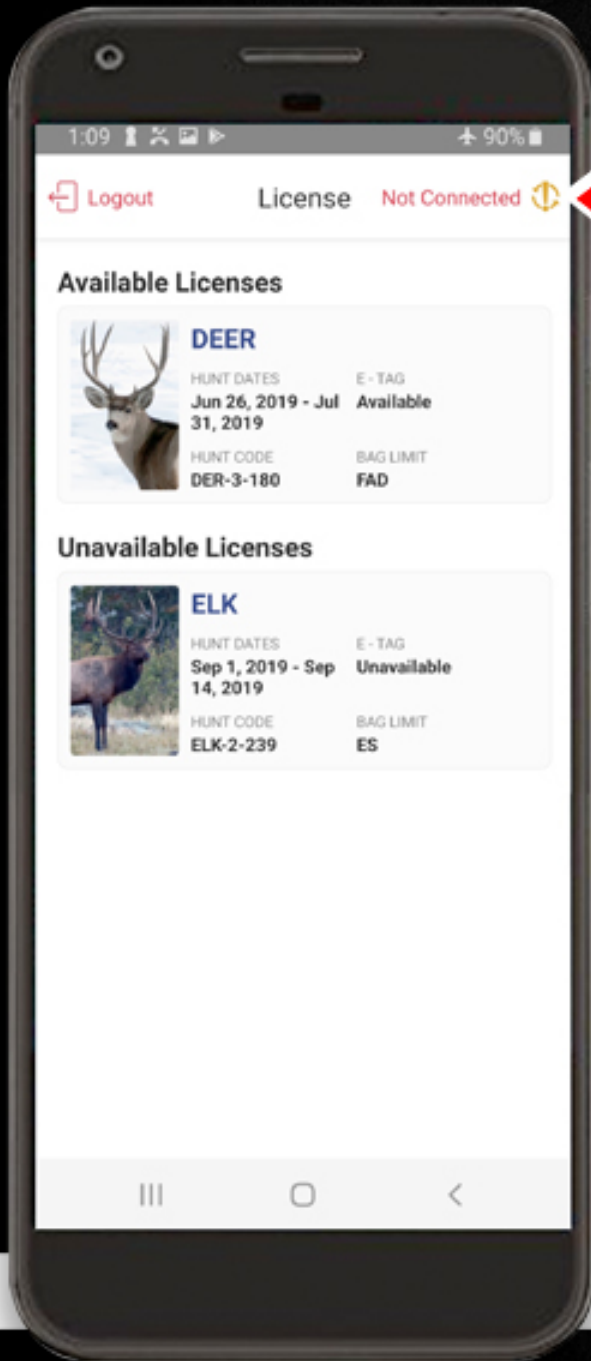

If the user has internet connectivity, the “Success!” pop-up message will appear and confirm they have completed the NM E-Tag process.

The mandatory harvest report will still be required.

NM E-Tag

NO CONNECTIVITY

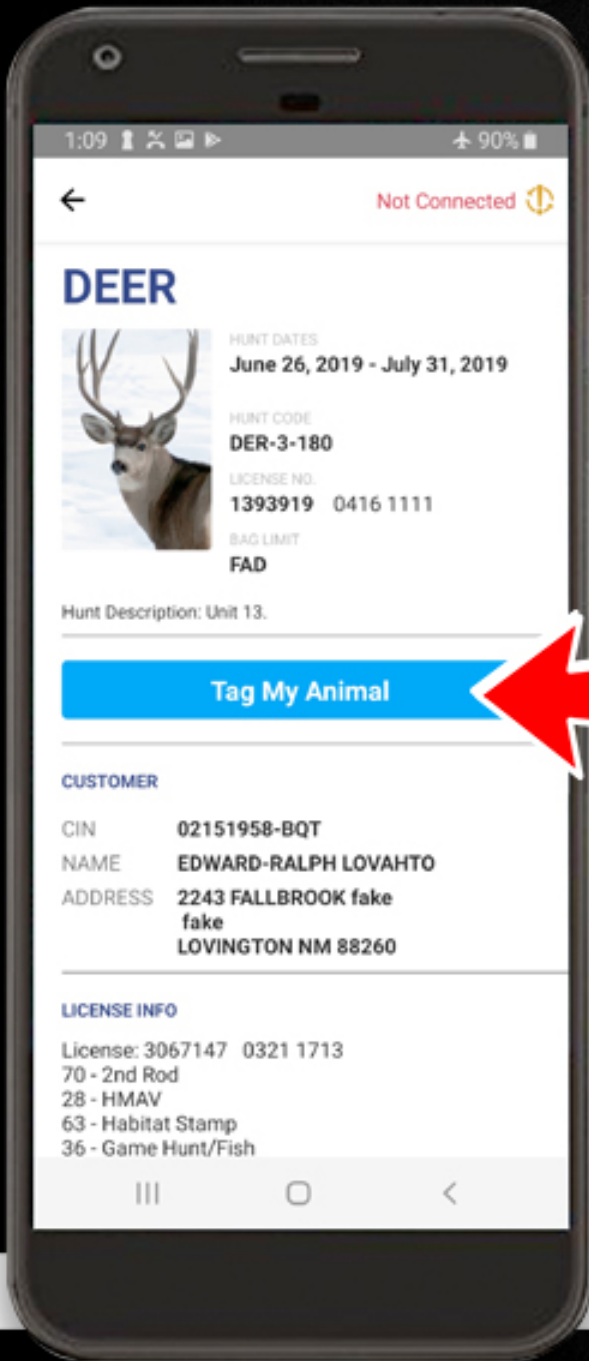

Users with no internet connectivity have a similar experience with a few slight modifications.

To begin, the user selects the species they wish to tag.

NM E-Tag

NO CONNECTIVITY

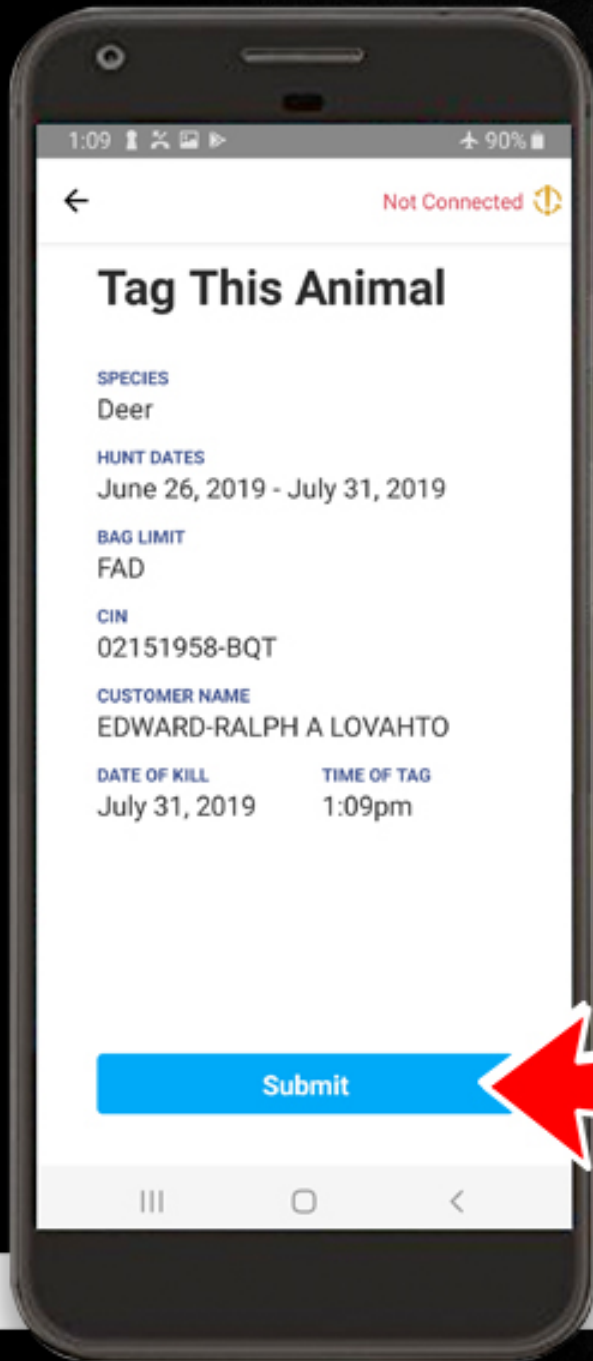

After selecting the species the user is able to tag their animal.

NM E-Tag

NO CONNECTIVITY

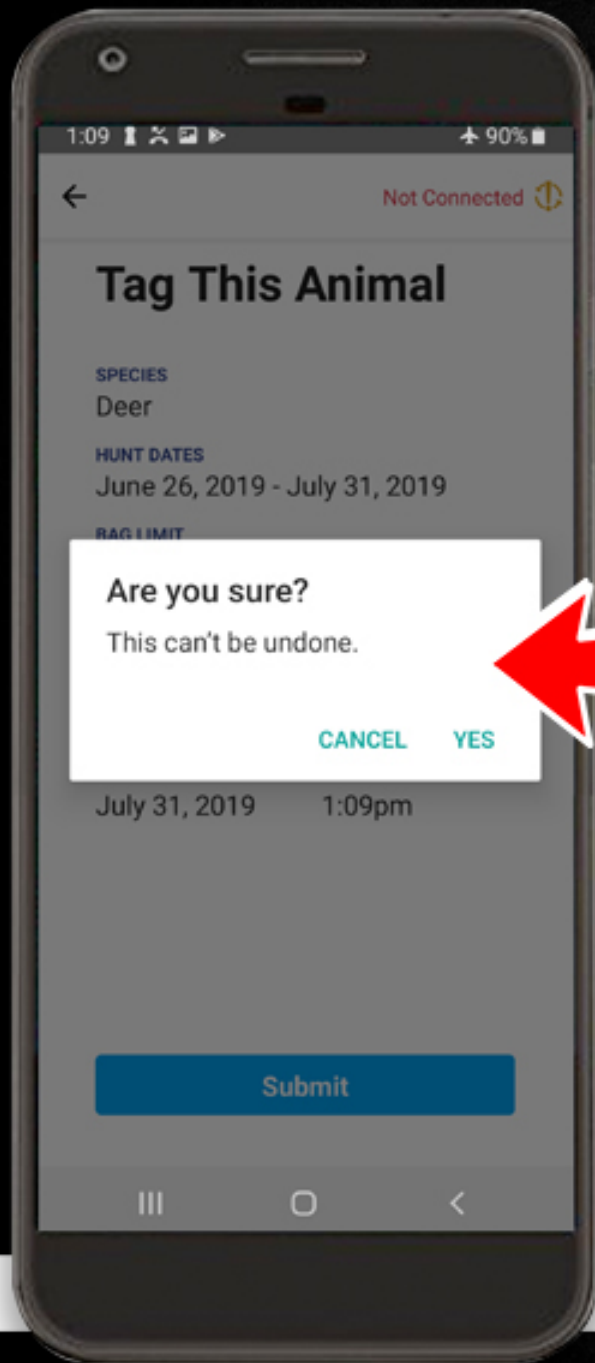

The user will select the submit button to confirm the harvest.

NM E-Tag

NO CONNECTIVITY

The user will be asked to confirm their harvest a second time. Once selected, this action can not be undone.

NM E-Tag

NO CONNECTIVITY

Tagging instructions are provided to the user. They are required to write their name, CIN, E-Tag number and date of kill on any material they can securely attach to the antlers and carcass.

Tagging Instructions

1. Write the information displayed below in permanent ink on a durable material (e.g. duct tape or flagging ribbon). If you have harvested an antlered or horned animal, please complete this step twice.
2. Attach your hand-written tag to the hock tendon of the animal (see illustration below) prior to moving the animal from the kill site.
3. If more than one tag is required, attach the second tag to the antler or horn of the animal (see illustration below) prior to moving the animal from the kill site.

4. Make sure your information is visible and readable after attaching the tag(s).
5. You must immediately tag your animal upon kill. Failure to tag may result in seizure of the animal.

Done

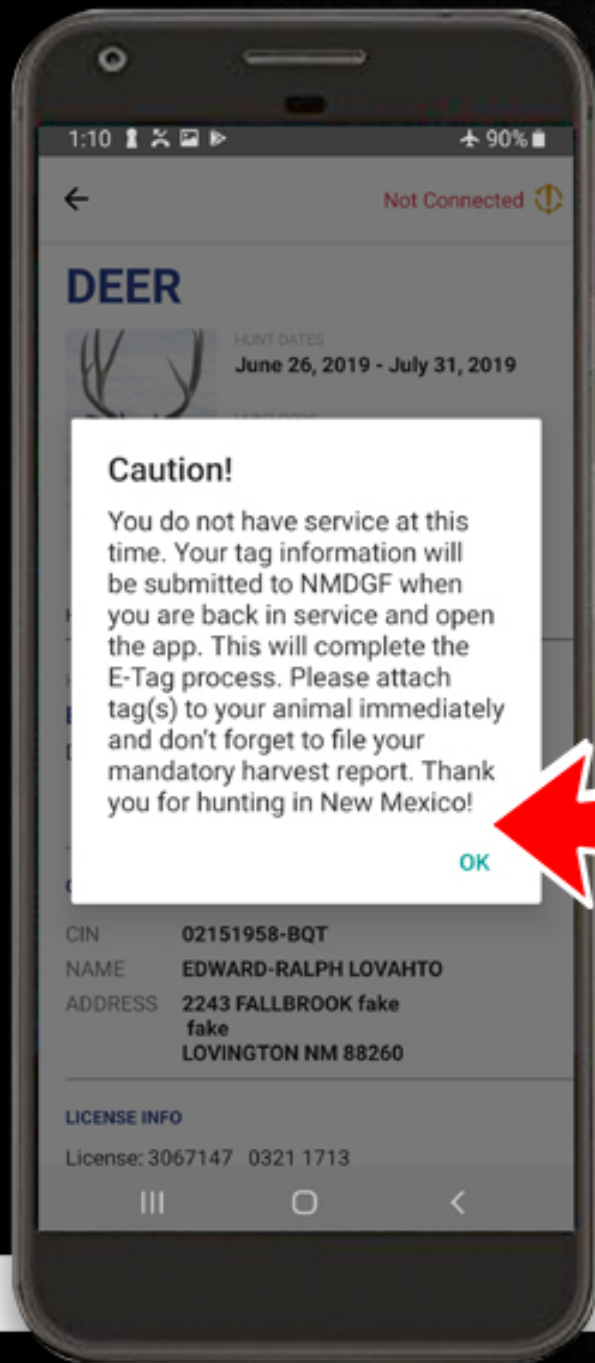

- Full Name
- E-Tag Number
- Customer Identification Number
- Harvest Date

The user selects "Done" when finished with the instructions.

NM E-Tag

NO CONNECTIVITY

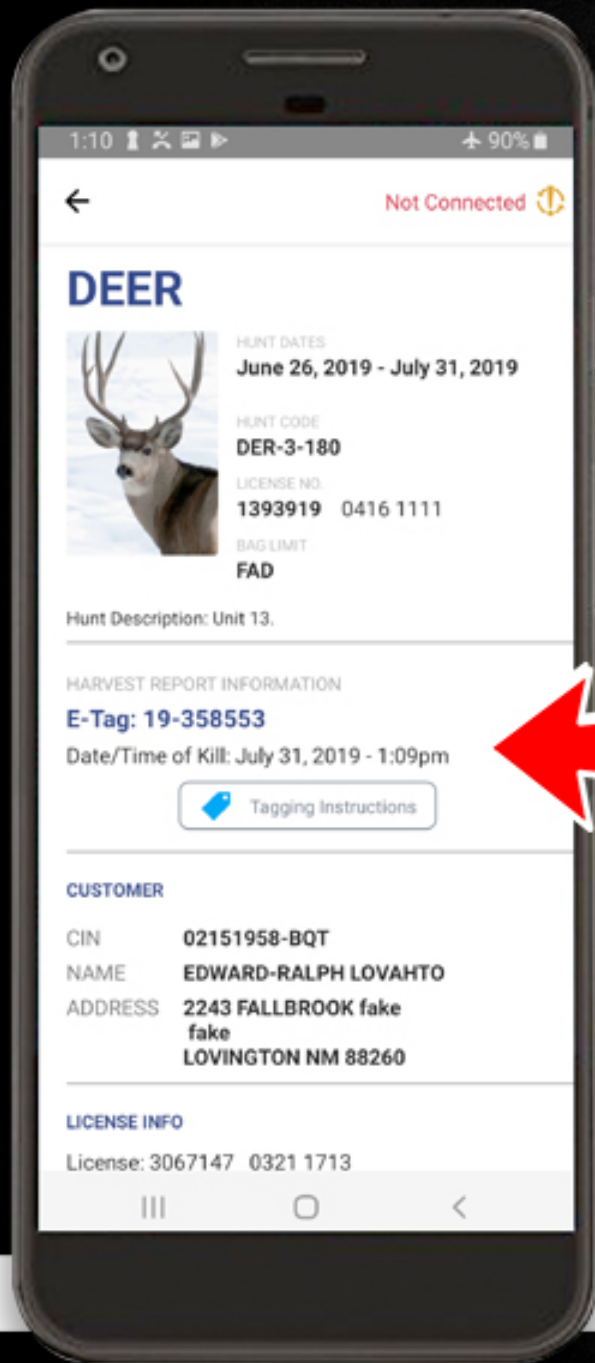

Users who do not have internet connectivity will receive the “Caution!” message pop-up and will confirm they will open the app when internet connectivity is available to completed the NM E-Tag process.

NM E-Tag

NO CONNECTIVITY

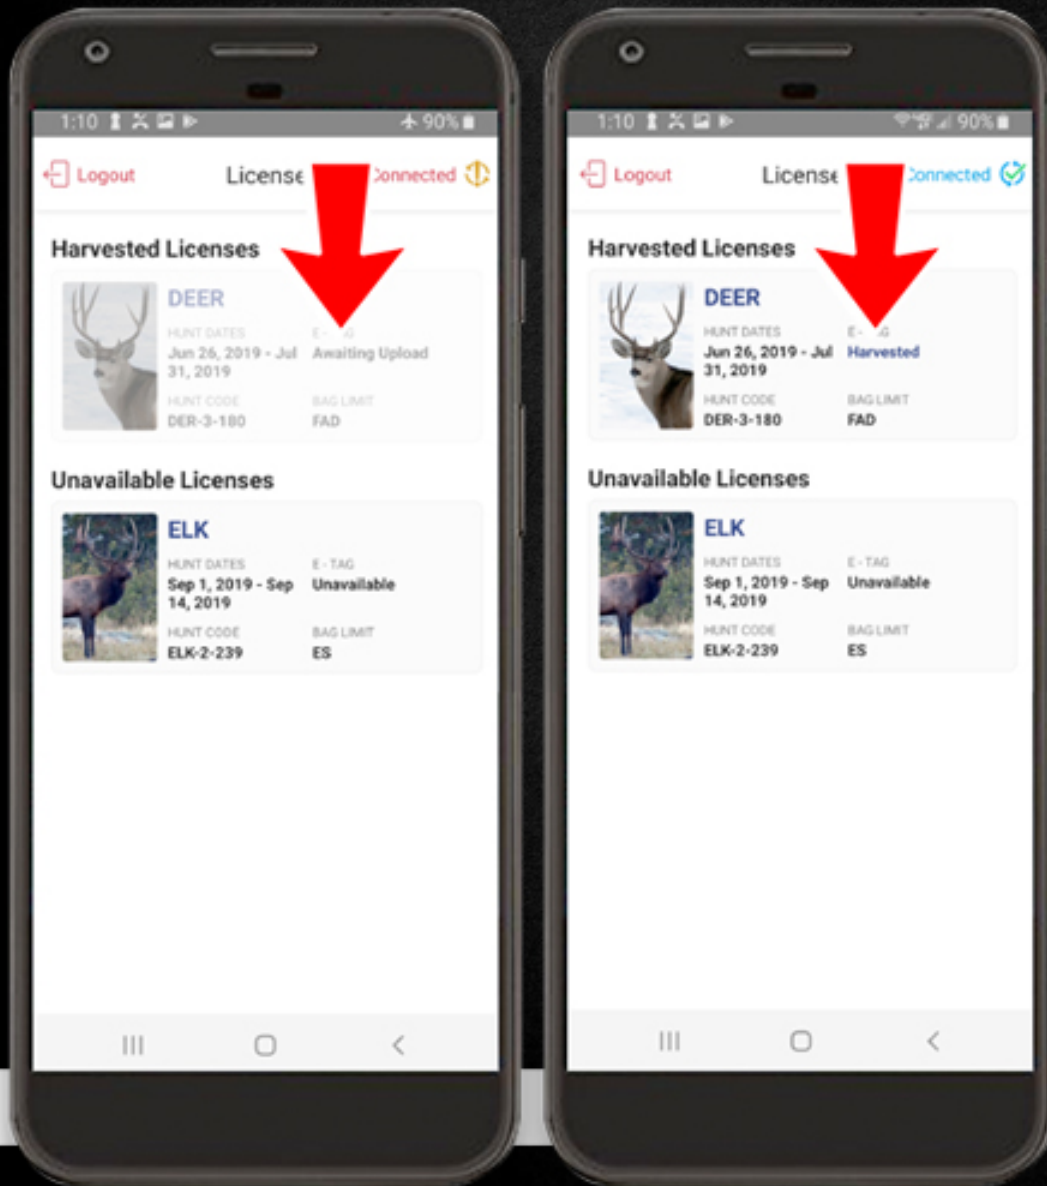

The user's harvest will be recorded in the app, but they will still need to allow the application to upload their harvest confirmation once they have internet connectivity.

NM E-Tag

MAKING THE CONNECTION

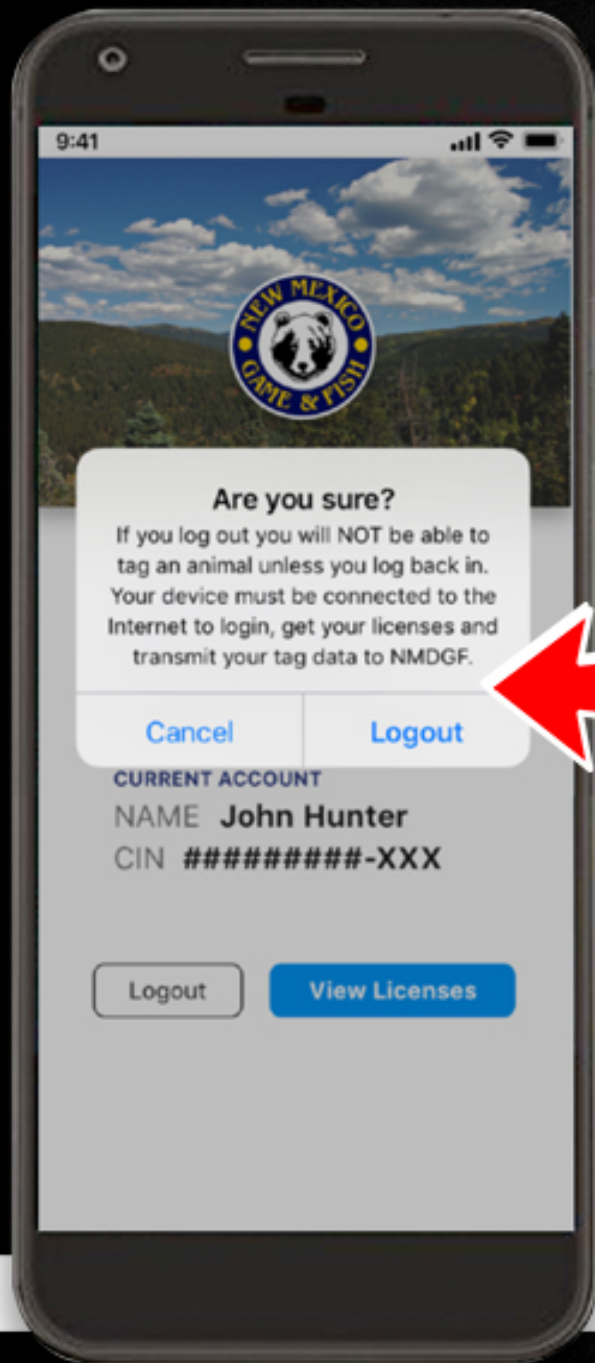

The license screen will show “Awaiting Upload” until a connection is made. Once uploaded, the status will change to “Harvested.”

NM E-Tag

NOTIFICATIONS

A user attempting to logout of the application prior to tagging, will receive a warning message stressing the user must be logged in to access license data, harvested data, etc...

NM E-Tag

NOTIFICATIONS

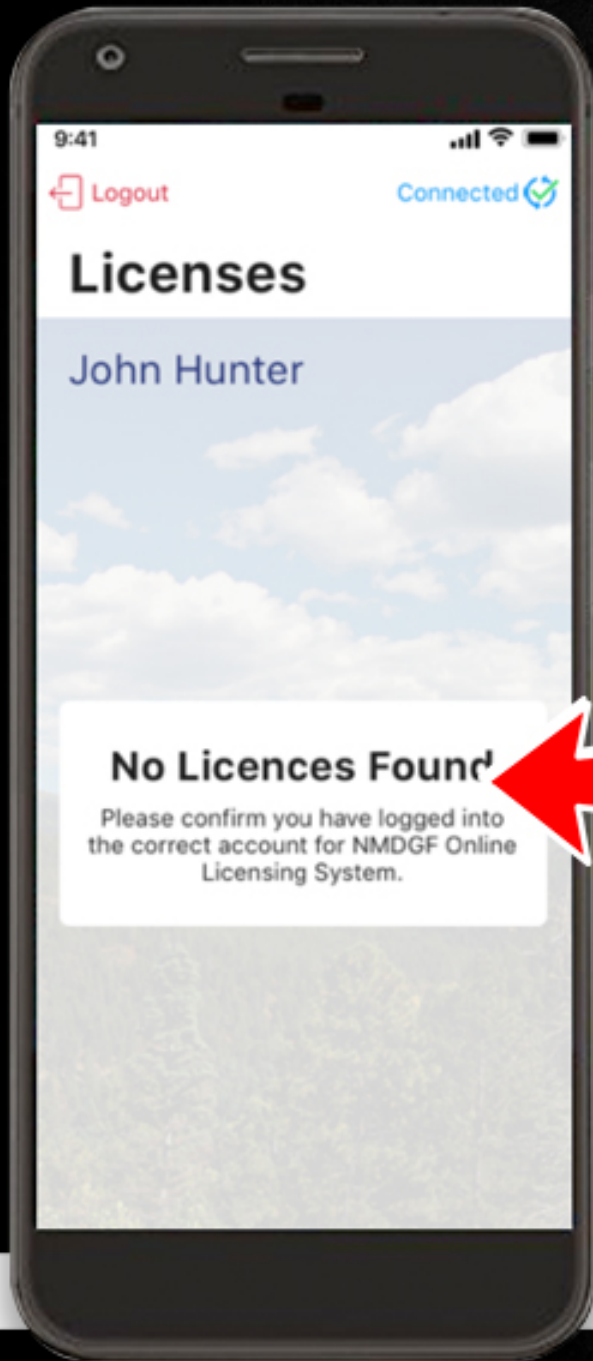

Users logged in, with no internet connectivity, will not be allowed to logout.

This is a safety measure to ensure any recorded harvest data is first uploaded to the Department's servers.

NM E-Tag

NOTIFICATIONS

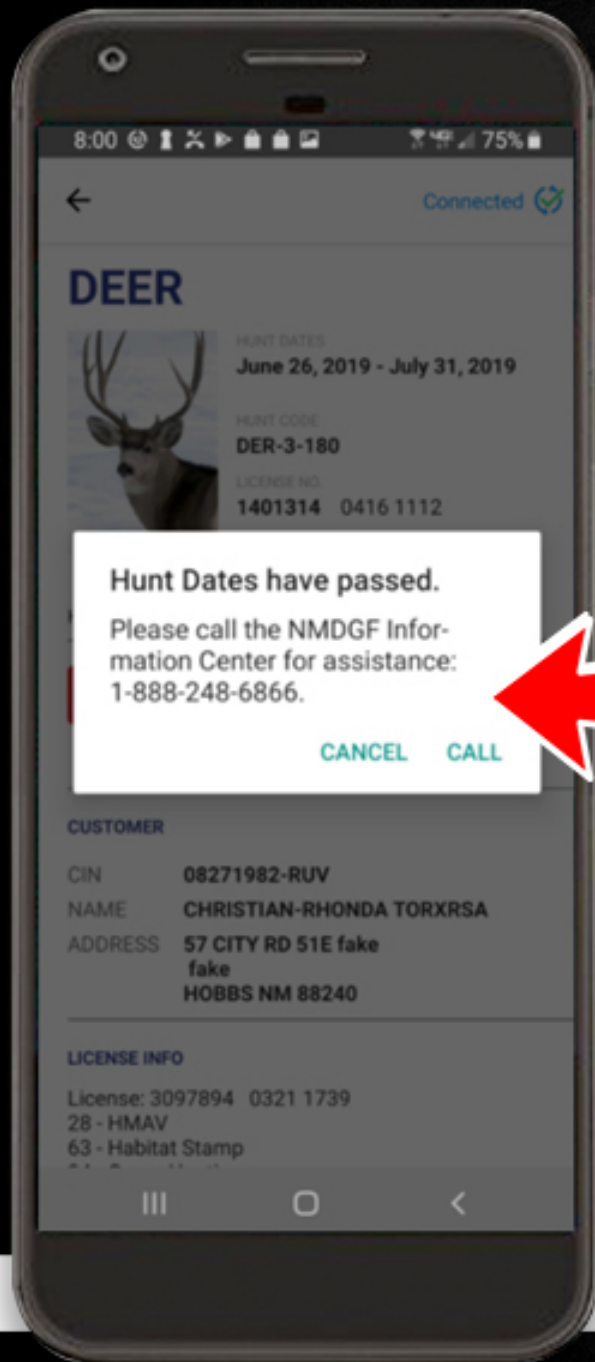

Any customer can login to the NM E-Tag app, but those that do not have any E-Tag licenses available will receive the “No Licenses Found” message.

NM E-Tag

NOTIFICATIONS

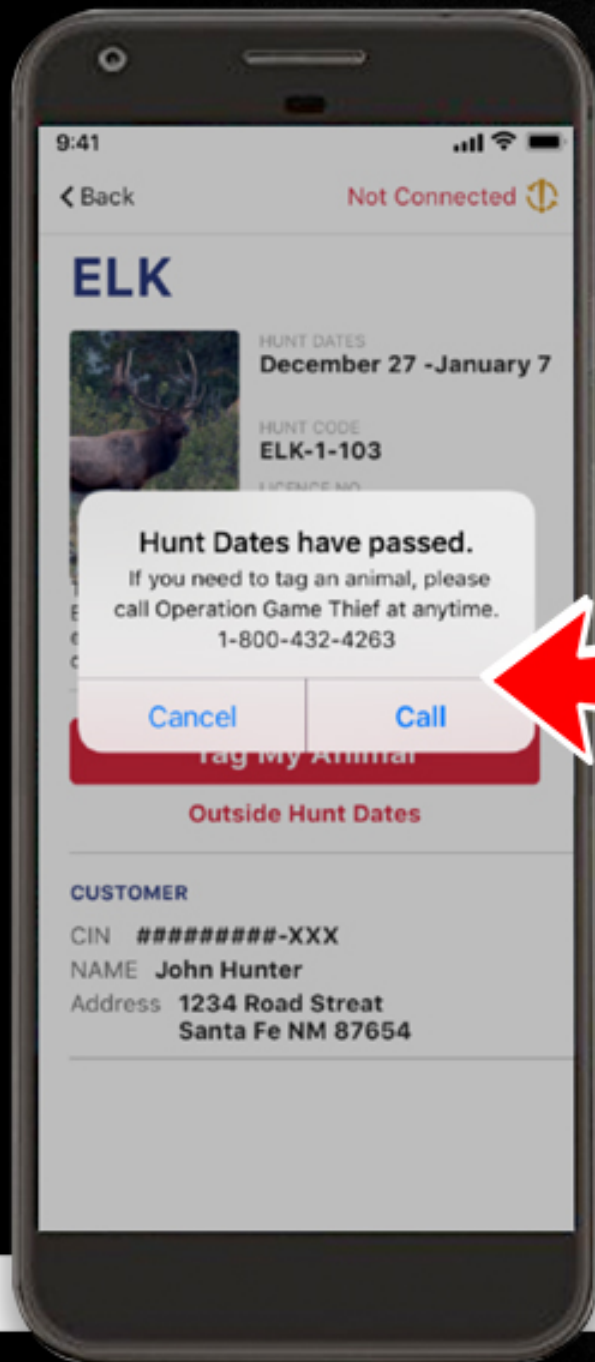

During normal business hours, when hunt dates have passed or expired, the user will receive a message requesting they contact the Department's information center for assistance.

NM E-Tag

NOTIFICATIONS

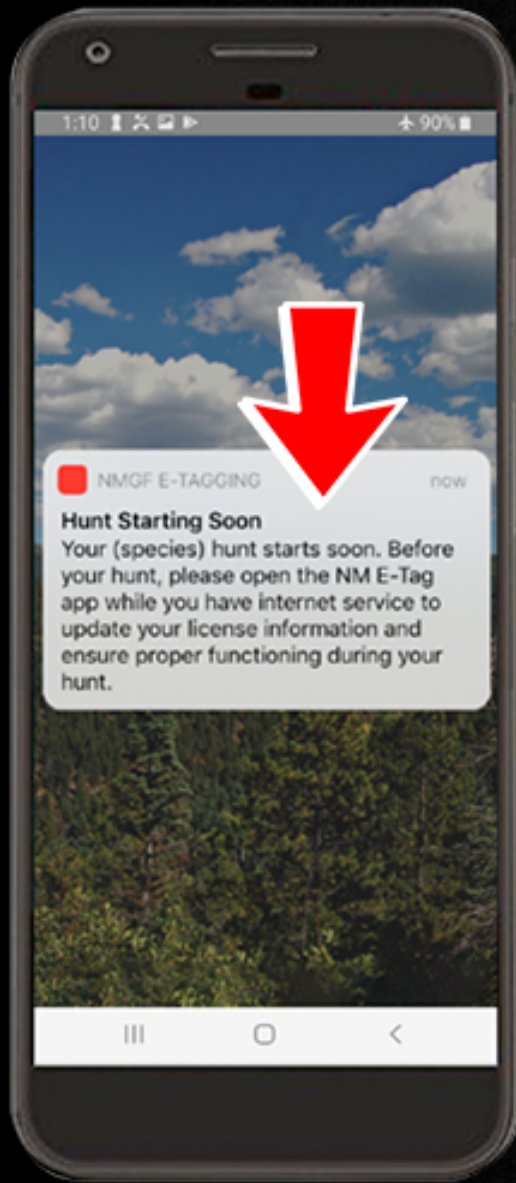

After normal business hours, when hunt dates have passed or expired, the user will receive a message requesting they contact the Department's Operation Game Thief phone number for assistance.

NM E-Tag

NOTIFICATIONS

Notifications are set to trigger:

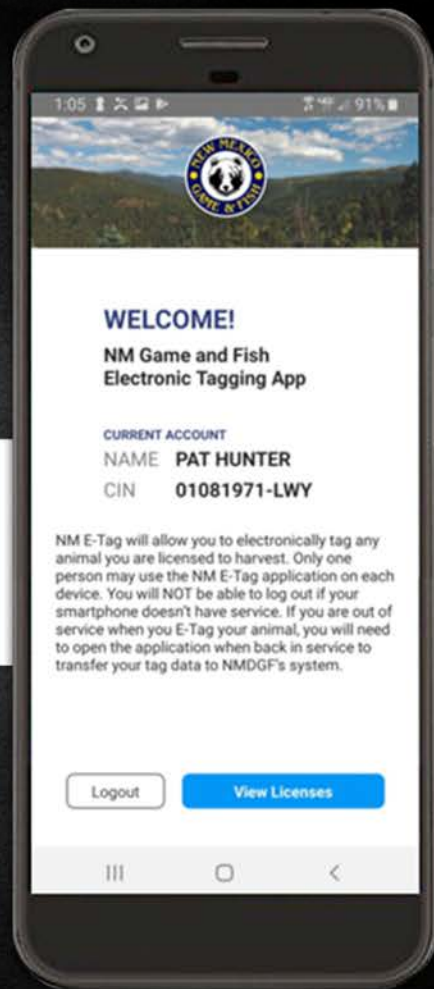

- 7 days prior to the hunt start date
- 1 day before hunt start date
- After hunt end date.
