

**Proposed  
Amendments  
to Game and Fish  
Licenses/Permits  
(19.30.9 NMAC)**

# Summary of Proposed Changes

The rule specifies license vendor requirements and vendor financial obligations to NMDGF.

- Reorganize the rule to consolidate vendor's financial obligations, eligibility, application, and procedural requirements.
- Clarify the license vendor's responsibilities and reduce the penalties for lost carcass tags.
- The penalty for each "unusable" tag, and each unused blank tag would be \$100 per tag in all cases, and the provision for automatic suspension after three failures is removed.
- The Director's authority is clarified to include denial, suspension, and requiring a surety bond in cases where a vendor has failed to comply with the vendor agreement or meet its financial obligations.
- Clarifies conditions and requirements if a vendor requests a hearing to challenge the Director's determination(s).
