

AGENDA ITEM NO. 11

Discussion on the Use of Technology While Hunting.

Rey Sanchez
New Mexico Department Of Game & Fish
June 23, 2016

Field Operations Division

Technological advances have raised some concerns about the use of some trail camera devices for hunting.

Recent developments in remote imaging technology have raised concerns about the use of some types of camera systems while hunting:

- Trail cameras
- Cellular enabled devices
- Wi-Fi enabled imaging devices

Some starting points that could evolve into future discussions.

- A change in Commission rules regarding Manner and Method of Take would be required concerning the use of cellular/Wi-Fi enabled game cameras.
- Retain the current Commission stance regarding trail cameras.

Questions – Suggestions - Guidance

Field Operations Division
