

Carcass Tag Instructions

Licenses, applications, harvest reporting and general information: **1-888-248-6866**

All Big-Game and Turkey Harvests Must Be Tagged

1. Immediately after harvesting any big-game animal or turkey, the carcass tag must be notched. The carcass tag must be attached to the kill before leaving the kill site. Instructions for notching and attaching are listed below and are provided on the reverse side of the tag.
2. Antlered or horned big game require an antler/horn tag be attached in addition to a carcass tag. Instructions for attaching are listed below and provided on the reverse side of the tag.
3. Any big-game or turkey kill left unattended in the field, in a vehicle or in camp must have a properly notched carcass tag and antler/horn tag (if applicable) attached.
It is unlawful to possess any big-game species or turkey in the field without a properly notched carcass tag or handwritten E-Tag.
4. Bear and cougar must be both carcass tagged and pelt tagged. Bear or cougar must be presented for pelt tagging within five days after harvest (pages 119, 125).
5. The carcass tag or handwritten E-Tag authorizes possession of the big-game animal or turkey for one year from date of kill. Bear and cougar carcass tags authorize possession of the animal for five days or until pelt tagged, whichever occurs first. Keep your tags!

Tagging Instructions

1. Do not remove backing on the carcass tag until you are ready to tag.
2. Upon killing your big-game animal or turkey, immediately and completely notch the month and day of kill on the carcass tag and then attach to the hock tendon of the animal or above the leg spur of the turkey (see illustrations above) prior to moving the big-game animal or turkey from the kill site. For bear and cougar the carcass tag may be wrapped around a hind leg above the foot if skinned.
3. Do not leave any backing material on the tag. Wrap the tag on carcass as shown, matching the ends together and pressing adhesive sides together evenly and tightly. Leave entire face of tag visible and readable. Do not overlap tag ends or cover any of the print.
4. Tags must remain attached until the big-game animal or turkey arrives at a taxidermist, meat processing facility or place of final storage (e.g. your home), or if required, until it is inspected, documented or pelt tagged by a NMDGF official. If multiple trips are required to transport the animal from the field, NMDGF recommends the tagged portion be transported first.
5. If a big-game animal is boned out or when a javelina is killed and nothing is removed or only the skull is taken, fold and adhere the carcass tag to itself leaving the entire face of the carcass tag visible. The adhered carcass tag must physically remain with parts of the animal that are removed and possessed.

Antler tag

Antlered and Horned Game Tag Instructions

When ready to tag, detach antler tag from backing. Attach the antler/horn tag to the main beam of the antler or horn, as close to the base as possible, where it will not slide off. **Leave entire face of tag visible and readable.**

E-Tag Instructions

If the E-Tag option is chosen, hunters must be able to show their license in the NM E-Tag app on their smartphone. Upon harvesting a big-game animal or turkey, hunters must click the Tag My Animal link in the app to receive their E-Tag number and other required information. The E-Tag number, CIN and date of kill must be hand written on a durable material (e.g. duct tape or flagging ribbon) in permanent ink and then attached to the animal (see *Tagging Instructions*, above). This procedure must be repeated for antlered/horned game as described above.
