Concise Explanatory Statement For Rulemaking Adoption:

FILED WITH
STATE RECORDS COMPTROLLER

2026 JUL -8 PM 1:28

Findings required for rulemaking adoption:

Findings MUST include:

- Reasons for adopting rule, including any findings otherwise required by law of the agency, and a summary of any independent analysis done by the agency;
- Reasons for any change between the published proposed rule and the final rule; and
- Reasons for not accepting substantive arguments made through public comment.

The rulemaking was undertaken to adopt a new Barbary Sheep, Oryx, and Persian Ibx Rule 19.31.12 NMAC which will become effective April 1, 2027. The most recent version of the rule will expire on March 31, 2027.

The new rule will include:

Require the purchase of a license at least one day prior to hunting. For hunts where published season dates are less than 6 days, hunters will no longer be able to buy a license once the hunt starts.

Persian ibex

- 1) Similar to bighorn sheep, shift ibex license numbers to be "up to," allowing the Department to adjust draw licenses up or down depending on population surveys. It is possible that the Department may draw zero licenses for certain hunts (for example, 2) F-IM, based on population metrics).
 - a. For once-in-a-lifetime hunts, up to 15 licenses
 - b. For archery, up to 40 licenses (over 2 hunt periods)
 - c. For F-IM, up to 40 (with 2 hunt periods)
 - d. For muzzleloader, up to 15
 - e. For youth-only, up to 5
- 3) Adjust season dates where necessary and shifting start dates to maintain hunts beginning on Saturday or adjusting to calendar day starts for consistency.

Oryx

- 1) Increase the number of off-range licenses by 5%, as harvest success rates for off-range oryx are high, suggesting there is more opportunity.
 - a. For youth hunts increase from 24 to 25 licenses
 - b. For regular licenses increase from 96 to 101 licenses
- 2) Require a ranch registration process for OTC private-land oryx licenses, similar to the current registration process used for private land elk hunting in Secondary Management Zones.
- 3) Adjust season dates where necessary. This includes adjustments of hunt dates on military ranges consistent with access and military missions (Fort Bliss and White Sands Missile Range). And shifting start dates to maintain hunts beginning on Saturday or adjusting to calendar day starts for consistency.
- 4) Shift the 70 years and older hunt based on public comment to allow hunters of any age to apply.
- 5) Clarify the definition of a broken-horned oryx to ensure hunters know they can take an oryx with no horns. Proposed clarifying definition: "Broken-horned oryx" or "BHO" shall mean an oryx of either sex that has at least one horn missing at least 25% of its normal growth, or any oryx which has no horn(s) shall be considered a broken horned oryx.

Barbary sheep

- 1) In collaboration with McGregor Range (Fort Bliss) several changes are recommended:
 - a. Increase the 2 ES hunts (1 military and 1 civilian hunt) from 10 to 20 licenses.
 - b. Increase F-IM hunts by 20 (from 130 to 150) and spreading the licenses out over 1-month hunt windows. Hunters will be able to access the range over all weekends in that month when there is not a military mission occurring.
- 2) Require a ranch registration process for purchase of private land Barbary sheep license.
- 3) Adjust season dates where necessary. Including adjustments of hunt dates on military ranges consistent with access and military missions (Bliss, WSMR). And shift start dates to maintain hunts beginning on Saturday or adjusting to calendar day starts for consistency.
- 4) Split draw hunts in GMUs 29 & 30, maintaining the same number of total licenses but distributing hunters across the GMUs to address overcrowding issues.
 - a. For hunts of 200 licenses, the split would be 75 licenses in GMU 29 and 125 in GMU 30
 - b. For hunts with 75 licenses, the split would be 25 licenses in GMU 29 and 50 in GMU 30

There have been no changes between the published proposed rule and the final rule. There were no substantive arguments made through public comment that were not accepted. To view public comments, please visit www.wildlife.state.nm.us/commission/meeting-agendas/ and click on the Hearing Archive tab. The resulting rule was based on what was best for the resource and overall hunter satisfaction.
