A total of 1,929 state furbearer licenses were sold during the 2019–2020 season; 1,666 (86.4%) of those license holders responded to the mandatory harvest reporting. Harvest records were accessed August 28, 2020; a total of 3,726 individual protected furbearers were harvested. No mandatory reporting requirement exists for unprotected furbearers; therefore, those species are not included in this report.

The number of harvested bobcats based on CITES tag reports is indicated in RED. The number of bobcats from the hunter harvest reporting system is in BLACK. Mandatory harvest reporting is not required for individuals with tribal permits who harvest on tribal lands. However, those individuals are required to obtain a CITES pelt tag for each bobcat they intend to transport out of New Mexico, and thus a record is made for those harvested animals through CITES pelt tag reporting.
