## Restrictions and Requirements

**Bag Limit:** The bag limit is one bear. No cub younger than one year old or any female accompanied by a cub(s) may be taken.

**Closed Areas:** Rio Grande Wild and Scenic River Area, including Taos Valley Overlook, and unit 6B (Valles Caldera National Preserve).

**Electronic Calls:** Electronic calls are allowed for bear hunting.

**Bear Management Zones and Harvest Limits (map, page 112):** New Mexico is divided into Bear Management Zones, enabling NMDGF to better manage regional bear populations. Each zone has two harvest limits: 1) the total number of bears that may be harvested (total limit); and 2) the number of female bears that may be harvested (female limit). Harvest limits for each Bear Management Zone are listed in the table on page 110. Bear management zones close when harvests reach 90% of the total limit, 90% of the female limit, or when the season has ended—which ever occurs first.

**Bow Only:** Sandia Ranger District in Zones 8 and 14, and the draw hunt in Sugarite Canyon State Park.

**Zone Closure:** Before hunting, hunters must verify their preferred zone is still open. Check online: [www.wildlife.state.nm.us/hunting/information-by-animal/big-game/bear/](http://www.wildlife.state.nm.us/hunting/information-by-animal/big-game/bear/) or call: **1-877-950-5466**.

**Pelt Tags Required:** Harvested bears must be both carcass tagged and pelt tagged. The carcass tag must be properly notched and attached immediately after the animal is harvested. The hunter must present the carcass tag, skull and hide for pelt tagging to any conservation officer or any NMDGF office **within five days** of killing the bear before the pelt can be frozen, processed, tanned or salted by a taxidermist or before transporting the hide outside New Mexico, whichever occurs first. **Hunters who appoint a designee to transport the harvested bear for pelt tagging are required to contact a conservation officer prior to pelt tagging to receive a designee code.** Hunters or their designees are required to present the **unfrozen skull of any bear killed with the mouth fixed open** for removal of a premolar tooth. Hunters or their designee must provide all required information at the time of pelt tagging including, but not limited to: sex of the animal and date and location of harvest. The pelt tag must remain attached to the hide until the hide is processed. Improperly tagged hides will be seized by NMDGF.

**Proof of Sex:** The testicles, penis and/or baculum of a male, or the vulva of a female, must remain naturally attached to the hide and be visible to the NMDGF tagging official. NMDGF will pelt tag a harvested bear only if proof of sex is attached to the hide and readily visible to the tagging official. Bears presented to NMDGF for tagging without proof of sex attached will be seized.

**Use of Dogs:** Dog use is **not allowed** on wildlife management areas (WMAs) or during September bow seasons. Dog use is **allowed** to hunt bears elsewhere during hunts for any legal sporting arm (see table, page 121). When dogs are used to hunt bears, the licensed hunter who harvests the bear must be present continuously from the time any dog is released. Dogs may be released only during legal hunting hours. There is no pursuit or training season outside the regular open season.

**Baiting and Trapping:** Baiting and trapping are **not legal methods** for taking bear. If accidentally trapped, the bear must be released. For assistance releasing a bear, contact NMDGF.

**Valle Vidal and Wildlife Management Areas:** It is unlawful to hunt bears on the Valle Vidal or WMAs, with the following exception: hunters with a valid deer or elk license, or bear draw permit, who also possess a valid bear license. Licensed deer and elk hunters or bear draw permit hunters may hunt bears in the Valle Vidal or WMAs provided they: 1) possess a valid deer or elk license or bear draw permit for the Valle Vidal or WMA; 2) possess a bear license; 3) use the sporting arm type specified for their bear draw, deer, or elk hunt; 4) hunt only during the dates of their bear draw, deer, or elk hunt; and 5) the harvest limit in the bear zone has not been met. Dogs are not allowed on WMAs. Dogs are allowed on the Valle Vidal during the April 15-May 20 and the Aug. 1-31 hunts.

**Livestock Damage:** Landowners, lessees or their regular employees do not need a license to kill a bear that has killed domestic livestock or presents an immediate threat to human life or property. Any person taking such action **must report the incident to NMDGF within 24 hours**. Pelts, claws and other parts of depredating animals taken under this provision are the property of the State of New Mexico and must be delivered to NMDGF.
