

APPROVED FISH SUPPLIER APPLICATION

NEW MEXICO DEPARTMENT OF GAME & FISH
 FISHERIES MANAGEMENT DIVISION
 ONE WILDLIFE WAY
 SANTA FE, NM 87507
 Office: (505) 476-8055
 Email: DGF.Permits@dgf.nm.gov

This application is for a fish propagation facility to become a Department approved fish supplier. Approved fish suppliers are those who are verified as disease free by the Department’s Fisheries Management Division and are eligible to request a permit for import, transport and/or release of fish. Fish facilities must obtain Department approval before conducting any business in New Mexico.

FISH SPECIES REARED AT FACILITY FOR THE PAST FIVE (5) YEARS

FISH SPECIES		QUANTITY <small>Note - Sterile, Triploid, etc.</small>		
Common Name	Scientific Name (family, genus, species, sub sp.)	Males	Females	Unknown

ESTIMATE THE FACILITIES ANNUAL PRODUCTION

FISH SPECIES		QUANTITY <small>Note - Sterile, Triploid, etc.</small>		
Common Name	Size	Males	Females	Unknown

DISEASE HISTORY

Provide all known disease history at your facility for the previous five (5) years.
 Attach all copies of disease inspection reports, name of inspectors, addresses, and telephone numbers for the inspectors and laboratory facilities. The New Mexico Department of Game and Fish requires hatchery inspections by certified animal disease diagnostic laboratories before approval of a facility.

List all sources of eggs and/or fish stocks introduced into your facility during the previous five (5) years. Include species, number, size (or eggs), suppliers' names, addresses, telephone numbers, and dates. Attach all copies of disease certification reports from these sources/suppliers.

FACILITY LOCATION

Attach a map to the application. Below, list the geographic location of the facility; include proximity to any water sources.

Names and addresses of other fish propagating facilities within 25 air miles of your facility

Attached a diagram or sketch of your facility illustrating the following:

- a. Sketch all water sources and types (i.e., spring, well, river, etc.), volume of each water source, and seasonal water temperatures for each source.
- b. Sketch all water flow through all raceways, rearing ponds, or units, etc., showing where and how water is divided, added, gathered, etc.
- c. Sketch how effluent water is released and where it is released (e.g. into a river).
- d. Sketch any recirculation of water, the volume, where it is gathered, when recirculation is used (i.e., continuously, seasonally, which seasons, etc.).
- e. Sketch water source, flow, and effluent through egg hatching/fry/fingerling buildings or units.

Acknowledgment Form

By signing below, the applicant acknowledges and agrees to each of the following:

1. Applications will first be reviewed by the New Mexico Department of Game and Fish (Department), Fisheries Management Division. Department staff will assist the applicant through the process; however, there is no guarantee of approval. The Director of the Department will make the final determination of approval or denial of such request.
2. Applications are not pre-approved based on non-existent facilities or any other requirements that are part of the application process. Applicants are responsible for all expenditures, investment in time, or other resources throughout the application process and are at their own risk and expense knowing that approval is not guaranteed.
3. Applicant agrees to notify the Department if any fish show signs of an infectious or contagious disease. Fish considered infectious or contagious may be destroyed as deemed necessary by the Department or authorized agents acting on behalf of the Department and/or the State of New Mexico.

Per Statute 17-3-32 NMSA 1978: In order to protect game animals, birds and fish against importation of undesirable species and introduction of infectious or contagious diseases, it is a misdemeanor to import any live animals, birds or fish into this state, except domesticated animals or domesticated fowl or fish from government hatcheries, without first obtaining a permit from the Department of game and fish.

4. Applicant agrees to prevent all egress/ingress of fish/fish eggs and effluent water into or from any public waters (ponds, lakes, rivers, streams, acequia or ditches). Applicant agrees to properly dispose of fish and not release any fish in the State of New Mexico.

Per Regulation 19.31.10.10 NMAC: It is unlawful for any person or persons to release, intentionally or otherwise; or cause to be released in this state any mammal, bird, fish, reptile or amphibian, except domestic mammals, domestic fowl, or fish from government hatcheries, without first obtaining a permit from the department.

5. Applicant agrees to notify the Department of any changes from the original application under which a permit was issued (death, illness, change of location, change of ownership, progeny etc.).
