

# DIRECTOR'S SPECIES IMPORTATION LIST

NEW MEXICO DEPARTMENT OF GAME & FISH  
LE FIELD OPERATIONS DIVISION  
SPECIAL USE PERMITS PROGRAM  
ONE WILDLIFE WAY  
SANTA FE, NM 87507  
[DGF.Permits@dgf.nm.gov](mailto:DGF.Permits@dgf.nm.gov)

Pursuant to regulation (19.35.7 NMAC) the species importation list shall be maintained, updated or amended by the Director as species information and concerns are identified.

The list contains a variety of species for quick reference and public awareness.

Each importation group is represented by a roman numeral in the “Group” column.

Importation groups are defined as follows:

- Group I** - Species importation list group I are designated semi-domesticated animals and do not require an importation permit;
- Group II** - Species importation list group II may be for live non-domesticated animals that are not known to be either invasive or dangerous and do not present a known risk to the health, safety or well-being of the public, domestic livestock or to native wildlife and their habitats.
- Group III** - Species importation list group III may be for live non-domesticated animals that present minimal or manageable concerns that will require specific provisions that must be met prior to issuing an importation permit to address health, safety or well-being of the public, domestic livestock or to native wildlife and their habitats.
- Group IV** - Species importation list group IV may be for live non-domesticated animals that are considered dangerous, invasive, undesirable, state or federal listed threatened, endangered, a furbearer or any other species of concern as identified by the director. The importation of these species are prohibited for the general public but may be allowed for, scientific study, department approved restoration and recovery plans, zoological display, temporary events/entertainment, use as service animal or by a qualified expert.

Note: any species of live non-domesticated animal not currently on the species importation list will be designated group IV until such time as another determination is made by the director.

NEW MEXICO DEPARTMENT OF GAME & FISH

Michael Sloane, Director

January 3, 2023

Dated

CLASS	QUICK REFERENCE	FAMILY	SCIENTIFIC NAME (Genus species subspecies)	COMMON NAME	Group	Status (if any)	Additional Restrictions

For questions contact the Permits Program at [DGF.Permits@dgf.nm.gov](mailto:DGF.Permits@dgf.nm.gov)

Biological Classification (scientific taxonomy) = Family - *Genus* - *species* - *sub-species*

“all species except as restricted in another group” means all of the species within that family or genus are considered Group I, **except** those specified in another Group II, III, IV.

all species = all *Genus species* within that specified Family

sp. = species (*Genus sp.*)

ssp. = sub-species (*Genus species ssp.*)
