A game bird propagation permit does not authorize the release of any game birds into the wild unless authorized by a specific release permit from New Mexico Department of Game & Fish (department).

This application is not for the importation of game birds. Applicants intending to purchase birds or eggs from out of state must submit an importation application and receive approval prior to importation.

Each permittee will be required to report the number of birds added and disposed of during the previous permit year, as well as the kind of birds on hand as of March 31. Please keep records of all activity (purchase, sold, hunted, hatched).
