

Outdoor Recreation *is* Outdoor Education

Many different lizard species can all live in one place if they aren't primarily hunting the same food items. Try to match the New Mexico lizard species below (first column) to a frequent prey item of theirs (second column), keeping in mind that this is by no means a complete dietary list. Answers are given below.

Lizards & Their Prey

Answers: A:4, B:3, C:1, D:2
